Hyderabad, Telangana · danielvincent1718@gmail.com · <https://github.com/Dan1718>

EDUCATION

International Institute of Technology Hyderabad
Bachelor of Technology Computer Science

Hyderabad
July 2025 - July 2030

WORK EXPERIENCE

Whiplano

Development Lead / Backend Engineer

Remote
Aug 2024 - Mar 2025

- Led a cross-functional development team, coordinating backend, frontend, and product design to deliver a complete solution within hackathon constraints.
- Architected and built the backend using FastAPI and MySQL, designing database schemas, API endpoints, and system structure from scratch.
- Developed and deployed a Solana smart contract to support blockchain functionality required for the project.
- Spearheaded product development decisions, aligning technical implementation with user experience and competition criteria.

Streetsmart

Backend Developer - Volunteer

Remote
Apr 2025 - Dec 2025

- Designed and maintained scalable RESTful APIs using FastAPI to support real-time data access and internal analytics tools.
- Built end-to-end image processing pipelines integrating computer vision models to extract structured insights from urban imagery.
- Implemented geospatial logic to analyze and interpret urban environments, enabling location-based insights and spatial pattern detection
- Optimized backend performance and data workflows to improve system reliability and response times.
- Collaborated cross-functionally with urban experts to translate urban analysis requirements into production-ready backend solutions.

SKILLS

Programming Languages:	Java, Python, C, SQL, Rust
Databases:	PostgreSQL, MySQL, Redis, MongoDB
DevOps and Infrastructure:	Nginx, Docker, Postman, Linux, Bash, AWS
Frameworks & Libraries:	FastAPI, SQLAlchemy

PROJECTS

ClipCasaded Python, Java

<https://github.com/Dan1718/ClipCasaded>

Forking and revamping an open-source cross-platform clipboard synchronization tool. Reworked the Linux client toward a CLI-first, headless-friendly workflow and improved behavior when running without an attached TTY.
